

## Aloye Computer Enterprises

### *History*

Founded in 1998 by James M. Aloye, Aloye Computer Enterprises provides prompt, efficient, dependable solutions of the highest quality to area businesses and consumers alike. Our solutions can aid your organization in its quest to reduce costs and maximize productivity. Our "full service" technology capabilities, coupled with our experience is the reason why we are in the best position to provide your organization with solutions that are prompt, thorough, and comprehensive. When your organization demands the best, demand Aloye Computer Enterprises.

## Aloye Computer Enterprises

### *Mission*

Aloye Computer Enterprises is relentless in its efforts to provide superior information technology services and unparalleled technical support to all of our corporate clientele. We believe that in the changing world of business, small and medium size companies can maximize their capabilities by utilizing the knowledge, experience, and "full service" technology resources of an experienced, local technology provider. Equipping your business to maximize the capabilities of high technology will increase your business' potential to offer products and services, as well as extend the scope and range of customers that can be reached. **Since its inception in 1998**, Aloye Computer Enterprises' mission has been to design, build, and support various types of technology and computer infrastructures that are in use today. We believe that business is about efficiency. Cost, efficiency, and capabilities are contributors to the success of an enterprise.

Aloye Computer Enterprises' mission is to empower our clients with a strong technology foundation. We know your mission is to succeed. Our tools will help you to do it.
